This second volume of persons named in English records between 1066 and 1166 follows on from its predecessor Domesday People: [Of] undoubted importance...in understanding the nature of Norman aristocratic society and the forces within it... a monumental effort. -- HISTORY

Drawn from extensive and wide-ranging research in British and French archives, the 7500 entries in this volume provide the first authoritative prosopographical key to over 60,000 names found in English administrative documents such as the Pipe Rolls and the Cartae Baronum, as well as various Surveys and thousands of royal and private charters. Both volumes focus upon regional origin, family, and the descent of fees, and together they provide the most complete view to date of the people responsible for the conquest and colonization of England.

Great Resource

By MICHAEL GAREY

This resource is very helpful. I just ordered the companion book "Domesday People: A Prosopography of Persons occurring in English Documents". I do a lot of early 11th century investigations and have found the book extremely worth the price.
