Five Stars
By Stephanie
Product came exactly as described-- and it came quick too!

0 of 2 people found the following review helpful.
One Star

By Laura, the Mainah
Terrible.

0 of 0 people found the following review helpful.
Disappointed & annoyed
By Angela
Annoyed that I can't use this with the kindle app on the computer. I have Windows 10, yet when I try to open the book, it says it is incompatible with Windows 8. For as much as this book costs, I should be able to use it on any device. I should've just purchased the hard copy. I haven't used it a ton yet, since I just bought it. It seems useful enough, but I also wish it was possible to write in the answers to the questions.
