By Jeff

I owned this book as a child, and was sad to learn that it had been discarded during a move. When I found it via a link from the internet I was super excited and ordered it right away. The images are beautiful and while some of the data has changed over the past 20 years I think its still a great reference that people of all ages can still enjoy.

If you like your dino books with a vintage look and smell this one won't dissapoint.

Beautiful Dinosaur Art

By Maitre

When I was a child in grade school, a schoolmate had this book and I fell in love with it because I loved, and still love, dinosaurs. Now, at 51, I finally own this book myself. It's amazing that this book had such a hold on me all through the years since my childhood but such is the power of the illustrator and his beautiful dinosaur art.

Great book and introduction to dinosaurs

By The Cavin Family

I've had this book for 30+ years. Loved it as a kid, came acrossed it recently in a box. Got it out and have reading it to my six year old son. Brings back great memories and I hope it creates memories for my boy.
