very informative

By Vicky

Although not my major, this textbook was required for one of my elective courses and it is very interesting. I liked the "Historical Note" sections here and there. I do not have a science background, but the text was not hard to understand. I do recommend getting the cheapest possible, textbooks are quite expensive unfortunately (especially if you are not majoring in this subject)

A few pages stick together but hey I bought it for a college course so not like it is a top shelf book in my library

By Trent

Very highlighted and corners were extremely bent. A few pages stick together but hey I bought it for a college course so not like it is a top shelf book in my library.
