Reading word by word can be very tedious, so I picked up this book to learn some tricks on how to grasp the gist of sentences in paragraphs very quickly. Herein, there are tips on how to concentrate, pick up the pace and focus on certain words to get the meaning within a short period of time. Now, at least i don't have to reread just to capture the essence of what's worded in paragraphs.1 of 1 people found the following review helpful.

Helpful!

By Paul

This book presents a few techniques that can help with increasing the pace of reading just as it promises. However, it emphasizes the importance of practicing these techniques, in other words you have to do your part obviously! So if you're looking for a magic bullet do not purchase this book.1 of 1 people found the following review helpful.

Not quite helpful for me

By Conner Kaden

I think the book does not successfully explain all the methods of speed reading and the necessary tips one can utilize to enhance their performance. The author needs to understand the need of the readers and provide some helpful content with powerful tips to use. See all 51 customer reviews...
