Practical, innovative, and powerful methods to enliven classrooms and ignite a passion for learning in each and every child. It is time to “GET ON THE DESK” and make every school in America the absolute best it can be.

I often say I am a schoolteacher with the heart of a parent. I’ve made it my mission to make a difference in the lives of all of our children. I have traveled throughout our country, visiting schools in all 50 states, seeking out remarkable teachers who inspire our children to greatness.

Sadly, I have also witnessed classrooms that seemed sapped of all energy, filled with students struggling to stay awake and teachers in desperate need of inspiration. These “Molasses Classes” broke my heart.

I had to do something! I decided to leave my classroom in East Harlem, New York, and devote my time to this audacious dream: to create a revolution in our country, starting from the ground up. The heart of this change would be a school, unlike any in the world. It would be full of passion, creativity, energy, and an unparalleled freedom to do whatever it took to lead every child to success. The parents and teachers of this school would forge a true partnership with the intent of providing the best learning environment possible.

I am proud to say that dream—the Ron Clark Academy in Atlanta, Georgia, is now a reality. We welcome educators from all over the world to visit and learn from our methods and techniques so that they may take them back to their schools. I am still teaching, every day, and I feel honored to have hosted more than 10,000 educators in my classroom. This book is filled with the magic, the successes, the heartbreaks, the mistakes, and the triumphs that are the Ron Clark Academy. These are the 101 most successful strategies we have used to help uplift our children and enliven our classrooms. My hope is that you will find ideas here that will help you ignite a passion for learning in your children—and together we can get the molasses out of all our children’s classes.

Be different. Be bold. Join in.

A very important book FOR PARENTS.

By Ms Gibbs

In my opinion, this book has life-changing information for parents. I am so thrilled to see so many educators all over the world be inspired by RCA. My hope is that parents all over the world will consider this "required reading" for themselves.

Part II of the book is geared specifically toward parents, and it is OUTSTANDING. "Don't be a Helicopter Parent. You can't rescue them forever" speaks to the importance of letting children learn to deal with disappointment, and how to handle the situation. Mr. Clark illustrates these points with a truly amazing story. (Ron, you definitely deserved a Krispy Kreme in front of American Idol after THAT experience. Your patience is really commendable.) The chapter entitled "Remind children of their blessings and stress the value of a strong work ethic" really stood out to me as well. There are so many wonderful, American affluent communities (like the one we live in) and the parents are hard working and well-meaning, but it is so easy to fall into bad habits that can create children with "entitlement issues." As a mother of a 10-year-old boy, the chapter, "Don't get your kids a video game system unless you are prepared to be a prison guard," really hit close to home. We have a game system, and it is a challenge to control his use of it. I gleaned several great ideas from this chapter.

But this is not just "garden variety parenting advice." Mr. Clark explains how these basic childrearing concepts are critical for a student's success in school, and beyond. Mr. Clark is right on - we DO need a full blown education "revolution" in our country. And it will not work unless parents PARTNER with the teachers and the schools. Mr. Clark has done a fine job of providing very specific suggestions on how to implement positive changes in our children's school experience. He does this with compelling real-life stories and shares his personal experiences with kids and their families. He has laid out an excellent "revolution strategy." I hope we all embrace it.

It's an excellent and inspiring book

By Just Right Academy

I bought a copy of this for my whole staff. While not every idea is transferrable to every school, what IS transferable is the intentionality with which he and his staff decide what is important and then set about to make it happen. It's an excellent and inspiring book. I've visited his school, and I was so impressed by his teachers and kids. It sounds too good to be true, but it's real.

Good book with some inspirational stories

By J. Sexton

Good book with some inspirational stories. I feel as though a good bit of it is completely unrealistic for everyday educators. I'm never going to rent a limo for my 103 students to take them on a murder-mystery tour to introduce a book. Can I do something fun in my classroom? Yes.
