'You first' is about respecting and understanding what you really want—and then going out to achieve it.

In *Brunette Ambition*, Lea Michele shared a lot of the secrets and stories behind her success, and how she manages to live a balanced and healthy lifestyle despite her hectic schedule. Now, in her second book, she will teach readers how they, too, can be their best selves. In Lea's opinion, keeping a journal and asking yourself the hard questions about what you want out of life is the best way to achieve your dreams, so she has outlined a series of exercises, prompts, and lists based on her own personal program. Lea's guided journal will address all the topics she wrote about in *Brunette Ambition*, including fitness, diet, work, school, and relationships, but with all-new material to help readers reach their goals. Peppered between the advice and exercises will be fun personal anecdotes from Lea to motivate and inspire readers to put themselves first and live their best life.

Great for organizing your life.

By Amazon Customer

In her guided journal, Lea speaks with the same tone that you would expect from a close friend asking questions about your day to day life. She asks about your expectations, your values, and your goals. Her

questions are open ended and nonjudgmental.

The journal itself is broken up into four different sections, further broken into 3 chunks each. There is plenty of space for you to write your thoughts, and the colors are aesthetically very pleasing.

However, not all sections may be relevant to you. The very first chunk is all about your family history and speaking to relatives. If you're anything like me, you don't have access to that knowledge. It was a bit disheartening to open straight to that. That being said, everyone will be able to find something of use in the pages of this book.

The writing is generally very easy to read, most of the type is some various shade of purple. The book itself is beautiful, and the decorations are cute. There is a horrible cursive font that's used pretty frequently that's kind of difficult to read, but you get used to deciphering it. It's dedicated to Jonathan Groff, which I thought was super sweet.

Over all, I think this is a great place to start for someone looking to organize their life and take control. This is a book dedicated to putting you first, and Lea does a great job of putting together fun quizzes and gentle prodding to make you reflect deeply on the choices you have made and will make in the future.

Missing something..

By jklivin5286

I really wanted a guided journal and thought this one would be perfect. Unfortunately, a huge portion of this one is very family focused. Since most of the book didn't apply to me it was mostly unusable for me. I would have liked something a lot more focused on figuring out ones wants and goals. Some parts were useful but even those aside, it really was very focused on family(where they are from, what they are like, etc..).
